

BioLynceus & Rick Allen Present....

biologically proactive seminars, and workshops

- ◆ Learn how microbiology is at the core of all efficient waste water treatment
- ◆ See how your business can save money by improving operational efficiencies
- ◆ Learn valuable information on how biological solutions can be used for most problems
- ◆ Find out what the best solutions are for solving even difficult water treatment challenges

Rick Allen provides instructional presentations that

Inspire audiences to rethink traditional patterns of business & operations

Provide expert insight into sustainable technologies for our environment

Reshape management of water remediation practices

Provide information on remediation of waste water through improved microbiology

Instruct proven applications for increasing ROI while reducing costs

Demonstrate practical strategies for mitigating tough environmental challenges

soil and plant management, water conservation, and re-vegetation solutions

Presentation Topics Include

Improving ROI with Existing Budget Constraints

Using Pro-Biotic Solutions to Improve Waste Water and Water Treatment Practices

Mitigating Sodium and Other Pollutants Seamlessly

Improving Lagoon & Waste Streams without Costly Retrofits

Remediation of Environmental Contaminants

About the Speaker

Rick Allen has been involved in the environmental business for over ten years. Rick provides his experience and common-sense understanding to groups and organizations who are ready to learn key environmental tools to improve and enhance existing operational strategies.

Due to Rick's expertise in the business of addressing challenging problems with soil and water, Rick is often consulted to provide broad-based, environmentally sound solutions to corporations, municipalities, small business, associations and organizations.

BioLynceus™ promotes a variety of biological solutions for improving soils, water and plants. Contact our corporate offices for more information on products. Sales opportunities are available. Call: 888-823-7404 or 303-823-7404 Visit our website: www.BioLynceus.com

BioLynceus & Rick Allen Provides.....

- ◆ Presentations at Waste Water Associations and Professional Organizations
- ◆ Educational presentations for CEU's and professional recertifications
- ◆ Participation in key associations we serve
- ◆ Professional seminars and presentations

We welcome the feedback from our audiences and clients.....

BioLynceus provides biological solutions for water, soil and plants. Specifically, services can be provided for various consulting, treatments, problem solving and operations, etc. in the drinking water and wastewater field. Mr. Allen was well received at Oregon's (OAWU - Rural Water Association) Annual Conference in March of 2007 both in the classroom and exhibit hall. Mr. Allen would be happy to work with you in serving your members and systems.

Sincerely,

Jason Green, Executive Director
Oregon Association of Water Utilities

We had the pleasure of having Rick Allen, CEO for BioLynceus, lecture at our 2007, 24th Annual Conference and Trade Show. Rick's three lectures were well received by our conference attendees with comments such as:

Knowledgeable and very understanding
Easy to keep up with
Very interesting, very good speaker
Very good information
Excellent session, informative very beneficial
Excellent speaker, very informative and pertinent subject mater
Best speaker of the conference

We look forward to having Rick lecture at future conferences and would recommend him as a lecturer.

Sincerely,

Rita Snodgrass
WGGA Executive Secretary
